## TOPICS IN PROGRAM

1. **Workshop.**
2. **Fundamentals**
3. **Minimal invasive techniques in spinal surgery.**
4. **Instrumented surgery of the spine.**

Thanks to fruitful activity of ISMISS mini-invasive spinal surgery in Ukraine was successfully developed for the recent years.

Next Symposium will be held in the capital of Ukraine – Kyiv.

For the recent period of time many prominent specialists in the field of spinal surgery took part in the symposiums.

We hope that this year the Symposium will contribute to the development of spinal surgery as well and the participants will be fully satisfied with the reports and new information they will contain.

Welcome to Kiev! Welcome to Ukraine!

*Kharkiv, January 2009*

Volodymir Radchenko, M.D.
